Peking Day By Day

BY "QUI VIVE"

Peking, Aug. 17.—At last there is a Minister of Finance. Some of the long overdue salaries will be paid, or at least so it is stated, but no one seems to know where the money is coming from to pay the salaries in question. However, Mr. Chang Hu has been finally prevailed upon to accept the important post, and for the period of little more than a month will direct the financial policy of the country.

Mr. Chang arrived in Peking last night on the "Blue Express" from Tientsin, and was met by quite a distinguished gathering at the Chien Men station, despite the late hour. The mandate of his appointment was issued at two o'clock in the afternoon, and immediately prior to it another mandate was issued relieving Mr. Wang Keh-min, the minister who never took office because of the opposition raised by the stockholders of the bank of China, from all responsibility.

The new Minister of Finance declined to be interviewed on his financial policy, stating that he was not au courant with all the problems or requirements that would be made of him. Mr. Chang said that he would confer with representatives of the Diplomatic Body in the near future, and hoped to be able to secure a remission of certain funds in the Salt Surplus for the payment of current obligations. He added, however, that he would never utilise the gold franc question to secure any money in defiance of public opinion.

* * *

Mr. Chang in accepting the portfolio, made it provisional on the condition that he was to be relieved of all responsibility on or before October 10, the date of the expiration of the present parliament. Mr. Chang stated that he had been previously very ill and was acting on the orders of his physician.

With regard to the raising of finances to meet the present stringency it has been variously reported that Mr. Chang has succeeded in collecting sums variously estimated at $3,000,000 to $5,000,000 Mexican to tide over the present crisis. One of the present plans consists of raising $1,300,000 from seven Peking banks on the security of the Changtai railway. Before this loan can be negotiated the consent of the Belgian interests must be received.

Other plans include the diversion of funds from the National Conservancy Bureau, but it is extremely doubtful whether or not the consent of Sir Ernest Watrn or Mr. Hsiung Hsi-ling can be obtained.

The money already raised is said to have come from contributions from Gen. Tsao Jui and other influential members of the Tientsin Clique. This was one of the stipulations made by Mr. Chang before he would consider accepting the portfolio. It is said that $400,000 has been promised by General Wang Chung Ping but that $120,000 has been allocated beforehand, leaving only a balance of $280,000 available.

All this morning Mr. Chang received a constant stream of callers at his office in the Ministry, and was busily occupied in issuing government warrants for the most pressing obligations, which include the payment of the large staff of clerks of the ministry, who have not received any remuneration during the past four months. It is stated that a large reduction in the clerical force of all the ministries is contemplated in the near future in order that expenses may be cut down to a minimum. It is believed to be the forerunner of a great wave of economy that has been promised for Peking administration for some time, and it will be interesting to see whether or not it will actually come now.

* * *

While on the subject of finances it is interesting to note that the main source of revenue for the government administration is derived from the receipts of the Peking Octroi, and these are admittedly insufficient to cope with the present emergency. It is said that the governmental expenditures were based on estimated revenues of the Octroi, and not on the actual takings.

Mr. Hsuh Te-pi, who was recently appointed the director of the Hatamen Octroi is an energetic soul, and in order to avoid criticism of his administration of the octroi finances has issued a sworn statement of the actual receipts, together with the allocation of revenues.

The report states that he is expected to turn over to the Peking Government $450,000 monthly while the monthly collections only average $200,000 which leaves a deficit of some $250,000 monthly.

The first item of expenditure is $100,000 each and every month

POWERS TO MODIFY PLAN FOR FOREIGN RAIL GUARDS

New Note To Suggest Joint Action With China

SALT PRECEDENT

Change Follows Peking's Objection To Lincheng Note

Exclusive Dispatch To THE CHINA PRESS

Peking, Aug. 20.—The Special Diplomatic Corps committee which has been considering the demands to be made on China as a result of the Lincheng bandit raid has completed plans for the supervision of railway guards to protect the trains, it was learned tonight.

The entire corps is expected to approve the note in the near future, with the possible exception of Japan, who has, however, tentatively approved the suggestions. It is said that the draft of the note has already been sent to Tokio for the approval of the Japanese Government and final instructions.

The note is understood to hold that the present railway police are possible of re-organisation on a basis that will afford protection to foreigners travelling on China's railways.

As the suggestions hitherto made that a foreigner be placed in command of the guards has not met with the approval of the Chinese the new note will suggest that a Chinese Director General be named with a Foreign Associate Director General, both having equal powers, and operating under the Ministry of Communications.

In addition to the foreign associate director general twenty lesser officers are to be nominated by China from a list of foreigners. The foreign officers will not command the guard units, in accordance with the Chinese objections, but will instruct and inspect the guards on all railways.

Foreign auditors are also to be appointed to inspect the books and thus insure that the guards are paid in full and promptly so that there will be chance of the guards turning bandits for nonpayment, as in the case of numerous soldiers in the country.

Under the system outlined in the new note the railway guards will be placed under a system practically identical with the present adminstration of the Salt Gabelle.

The nationality of the foreign officers was not discussed at the meeting, it was said, although it is known that Norway and Great Britain have favorite candidates for the job. It is expected that the twenty lesser officers and auditors will be chosen from among several nationalities.

It was learned that in the discussion accompanying the drafting of the note the diplomats all expressed a desire to co-operate with China rather than use a bludgeon to force the country to agree. For that reason it is said the administration of the guards will be under the Ministry of Communications so that a Chinese will be actually in command although the active work will be performed by a Chinese and foreigner on equal terms.

Forest Fires Devastate Large Areas In France

(Reuter's Service)

Paris, August 20.—Great forest fires have devastated the whole of the Var coast, burning down several villages and causing the inhabitants to flee to Cannes. The crops have been completely destroyed. The thermal station and race-course at Mandelieu and the Cannes Golf Club were destroyed. A woman and two children were burned to death. The troops were called out at Nice, Grasse, Antibes and St. Raphael to fight the flames. The fires were eventually overcome through the wind changing as the flames reached a cemetery on the outskirts of Mandelieu.

Hongkong Badly Battered By Typhoon, Peak District Hardest Hit; Ship Losses

American Tramp Steamer Josefina Almost Completely Wrecked, But Manages To Reach Harbor; Macao Also Suffers From Storm

(Reuter's Pacific Service)

Hongkong, Aug. 20.—Hardly a house in the Peak District escaped damage by the typhoon. The untenanted military sanatorium was badly wrecked. The Mount Gough police-station narrowly escaped complete destruction. The roof of the Hongkong and Shanghai Bank junior mess has fallen in and damaged two floors. A corner of a room of the Chief Justice's house was blown away. The roof of the Victoria Hospital was seriously damaged. The wall surrounding the maternity ward of the Matilda Hospital was blown down, and the massive iron gateways wrenched from their pillars. The Peak Hotel was severely buffetted. Mr. W. Sinclair's re-built house was completely unroofed.

The American tramp steamer, Josefina, with Spanish officers and a Filipino crew, from Manila to Nagasaki, put into Hongkong on Sunday. She had been badly buffetted by the typhoon. The bridge was partially wrecked, the compass smashed, the deck-house washed overboard, the railings twisted, the companion-way carried away, the cabin-doors smashed, the ports broken, all moveables carried away, the officers' quarters wrecked, and the rudder lost. The steamer presents a pitiable spectacle.

(Reuter's Pacific Service)

Hongkong, Aug. 20.—At Macao the Netherlands Harbor Works Co.'s dredger, Peking, turned turtle. Two members of the crew were saved. The damage done to the harbor works will retard progress considerably. The Portuguese armed steam-launch, Almirante Hugo Lacerda, foundered. Only one member of a crew of 15, of which three were Portuguese, was saved. A few Chinese launches were sunk. The Government patrol-launch, Coloane, picked up scores of Chinese from foundered Chinese passenger junks with a large number of passengers. Another passenger junk is missing.

(Reuter's Pacific Service)

Hongkong, Aug. 20.—H. M. S. Bluebell narrowly escaped collision with the drifting Sekine Maru, Ginyo Maru and Loong Sang during the typhoon. She had to be kept going at half-speed all the time in order that she might not break away through her cables snapping, as even by steaming seven knots she was only just able to keep the strain off the cables. The Bluebell lost her wireless aerials through her topmast breaking away. The boats on either side of her were smashed in.

Little additional information of the typhoon's havoc has been received locally. It is reported that the body of one member of the crew of the s.s. Loongsang, which was sunk has been found. Four members of the crew are reported missing. Four others members of the crew, including the captain, are probably safe, while about six Chinese belonging to the crew are reported safe.

Word has just been received by the Marine Superintendent of Jardine, Matheson's that the body of Mr. Black has been found. Those reported missing are as follows:

A. R. D. Smith.
F. McGovan.
J. V. Barron.
D. R. Wilson.

The captain of the vessel, P. Bowell, as well as J. S. Masson, R. Richens and J. T. Brown are presumably safe.

Word has also been received that the s.s. Chaksang, which has been damaged, has been floated.

The s.s. Loongsang, which belonged to the Indo-China fleet, was a passenger vessel playing between Hongkong and Manila. She was built in 1896. She was of 1,738 registered and 1,093 net tonnage. She was 260 feet long, with a beam of 36 feet and a depth of 204. She was registered in London.

Full eyewitness details of the havoc wrought by the typhoon will be brought to Shanghai by officers aboard the Messageries Maritimes s.s. Andre Lebon which left Hongkong on Saturday afternoon and arrives here today.

The Empress of Australia, with which the former ship nearly collided, is not due at Shanghai until September 27.

The first authentic detailed report of the havoc wreaked by the terrific typhoon which recently ravaged Chekiang in the Ningpo district is contained in the following letter:

Taichow, Chekiang, Aug. 15.

"On the 7th inst. about 4 p.m., it began to blow and rapidly increased to the worst typhoon this district has ever had. By midnight roofs, walls, trees and stones were freely mixed with the

POINCARE TAKES FRIENDLIER TONE IN RUHR SPEECH

Says France Will Try To Adopt Policies To Allies'

(Reuter's Service)

Paris, August 19.—A more friendly tone was manifested by M. Poincare in his speech today on the occasion of the unveiling of a war memorial at Charleille. He declared that France would make every effort to bring her policy near to that of all the Allies and would always be ready to seek with them any alleviation that united action might bring to their sufferings.

The Premier said that nations, like individuals, realised the necessity of uniting in great moral crises better than in the uneasiness of convalescence, and, although union had now saved the lives of the Allies, it was still not useless.

M. Poincare in conclusion denied that the Ruhr was responsible for unemployment in Britain, which had improved since last year. He deprecated indulging in controversies like the legality of the occupation, and said that he preferred to seek a practical solution of the problems in which all were interested.

(Reuter's Service)

Duesseldorf, Aug. 18.—A drastic decree against sabotage, issued today by General Degoutte, threatens a maximum penalty of 20 years' imprisonment and a fine of 500,000 gold marks for anybody impeding quantity or quality of industrial productions, and 15 years' imprisonment and a similar fine for hindering the agents of the Inter-Allied mission.

The French yesterday seized 167,000,000,000 marks consigned to the Reichsbank at Bochum-Eckel.

(French Wireless through Reuter)

Paris, Aug. 19.—A mission, composed of eleven inhabitants of the Sarre and some natives of Metz, including the Deputy Hackspill, have completed a four days' tour of the former front and the devastated districts. A press correspondent declares that the mission were greatly impressed by everything they saw and heard. The Sarrois were astonished at the extent of the devastation of which they had no idea, and of the progress of reconstruction.

They declared that they now understood the tenacity of France in obtaining reparations. At Verdun Major Lespinasse was applauded by the mission when, after having described the battle, he spoke of the will of France not to begin the war again but to restore herself to the prosperity of 1914. At Rheims Cardinal Lucon received the mission in the Cathedral where he showed them the ruins caused by the German bombardment. The Cardinal denied again that the Cathedral had been used for military purposes as the Germans alleged.

Shanghai Mint To Get Funds

Mr. Chang Hu, the new Minister of Finance, has agreed to raise $300,000 in cash for enabling the Shanghai Mint to start operations, according to a message from the Dah Tong News Bureau last night. The operation of the mint has been delayed because of a lack of funds.

KIAOCHOW NOW BETTER RULED, IS CHINESE CLAIM

Roads Around Tsingtau Greatly Improved And Extended

(China Press Correspondence)

Tsingtau, Aug. 18.—Since the transfer of the Kiaochow leased territory into Chinese hands considerable activity is being shown by the Public Works Department in repairing, maintaining and improving the roads in and about Tsingtau, and these highways are again beginning to take on a semblance of the earlier days, before the war.

Any apprehension entertained by the local residents when Tsingtau was taken over that things would go to the dogs, has been quickly dispelled, and American road building methods are being adopted under the supervision and direction of a capable engineering staff and a great deal of credit is due the heads of this particular department of city affairs for the energetic manner in which this work is progressing.

Americans can also take a certain amount of pride in the work being done as American returned students, familiar and experienced with asphaltic road construction as done in the U.S.A., are making a complete study of Tsingtau's requirements and when the present program is completed Tsingtau will again have beautiful roads and highways and will be privileged to take its place with the leading cities of the Far East.

LONDON WRITER HAS NEW PLAN TO 'SAVE CHINA'

Says Dr. Koo Should Apply To League Of Nations For Aid

(Reuter's Service)

London, August 20.—The Daily News' correspondent, Mr. Wilson Harris, in an examination of the situation in China, suggests that she should approach the League of Nations in order to bring about a solution of her troubles. He points out that, as a Member of the Council and Assembly, she would be like a man commissioning a firm of which he himself is a shareholder and a director to build his house. Mr. Wilson points out the League's services in connection with Austria. He says that it must be clear to Dr. Wellington Koo that unless China can take the initiative in putting her own house in order some form of foreign intervention is imminently threatened.

PAPYRUS' OWNER ACCEPTS BID FOR TEST RACE IN U.S.

English Derby Winner To Meet Best Horse In America

(Reuter's Service)

London, Aug. 19.—Mr. Ben Irish, the owner of the Derby winner, Papyrus, has accepted a challenge from American racing men to race against a selected American champion at Belmont Park on October 20 for £40,000 and the title of "the fastest horse in the world," the loser to receive £4,000.

Word that the winner of the English Derby, Papyrus, is to be matched with a selected horse in America to race for the title of "the fastest horse in the world"—and a £40,000 stake in addition thereto—will be received with much interest and a great deal of argument by sporting men the world over.

First will come the question of whether Papyrus is the fastest horse that England can put in the field, and despite the Derby victory this point will likely be hotly disputed. Then will arise the problem of selection of the American trackster to be pitted against the visitor. In this connection the first name to come to tongue will probably be that of Morvich, winner of the Kentucky Derby, hailed by American racing enthusiasts as the greatest three-year-old since Man-o'-War. Or, this year's much touted thoroughbred Grey Lag, which has been romping home to victory in classic after classic on the New York tracks, piloted by America's premier jockey, Earl Sande. And here again will discussion arise, for the American Derby is over a course of 1¼ miles, while the English Derby is run over a distance of 1 mile and 7 furlongs.

However, Morvich or Grey Lag may not class as the American selection after all. In the Illinois Derby, run at the Hawthorne track on July 14 under American Derby conditions, In Memoriam, owned by C. Widemann, won the race handily in 2:04 1-5, 2-5 of a second under Morvich's time for the Kentucky classic.

Local turfmen stress the handicap which an ocean voyage lays upon the English contender and, unless sufficient time for thorough acclimatisation and familiarisation with the course conditions is allowed, the factor is one to be given consideration. Any argument on this point might be solved by transporting the horses for a second run in England—providing the Belmont race provides a contest justifying it.

WEATHERBE HAS ESCAPED FROM YUNNAN BANDITS

Britisher Walking From Burma To Peking Now At Tali

(Reuter's Pacific Service)

Peking, Aug. 20.—The escape of Mr. D'Arcy Weatherbe has been confirmed. He arrived at Pinchuan on August 13 and left there for Tali on August 15.

(Reuter's Pacific Service)

Peking, Aug. 19.—Intelligence from Yunnanfu shows that Mr. D'Arcy Weatherbe has escaped. Troops have been despatched to search for him and escort him to Yunnan.

Mr. Weatherbe was on a walking trip from Burma to Peking when he was captured while crossing Yunnan by one of the bands of bandits who are thick in that region. It will be remembered that Mr. Bruce Hopper, formerly of The China Press staff, wrote a series of articles concerning his experiences walking the same country through which Mr. Weatherbe was walking when captured. Dr. W. W. Peter also wrote a series of articles concerning banditry in Yunnan in The China Press a short time ago.

(China Press Correspondence)

Nanking, Aug. 19.—Northern Anhui province is still overrun with bandits of all descriptions. Near Hsu-yu city, just a short time ago more than 100 people, 70 of them members of one clan, were killed in a raid by between 3,000 and 4,000 bandits.

Southern Anhui, as well as the northern part of the province is suffering from floods, which are supposed to create bandits. In some other parts of the province the people are suffering from drought. That, it is said, also creates bandits.

(Independent News Service)

Hankow, Aug. 19.—Mr. Hsi San-liu, secretary of the Szechuen-Hankow Railway, has received a telephone message from Field Engineer K. C. Li that Tsaoshih is still panic stricken.

The town has been deserted by troops and many of the people who escaped personal injury and capture at the hands of the bandits are fleeing with all the possessions they still have. Troops ordered by the Tuchun to go from Teianfu to assist at Tsaoshih have not yet arrived.

Fuller and more accurate information concerning the damage wrought by the brigands shows that Mr. Onley's house was not burned.

The bandits released Dr. Woo, one of the Chinese Christians in charge of the London mission during the absence of the foreigners. The other captives, estimated at 200, are still held for ransom of $80,000.

COOLIDGE TO ASK TEST FOR IMMIGRANTS BEFORE SAILING

President Would Have Pre-embarkation Examination

DAVIS APPROVES

Law Would Do Away With Ellis Island Troubles

(BY UNITED PRESS)
(Special To The China Press)

Washington, Aug. 20.—President Coolidge will recommend to Congress legislation which will permit the United States to establish immigration examination stations at points of embarkation in Europe, Asia and other places, it was learned today.

The legislation will follow out the recommendations made by Secretary of Labor Davis who is now in Europe making an investigation of immigration.

Among the hundreds who were recently ordered deported from the United States were large numbers who were rejected because they were undesirable for one or more reasons, chiefly because of physical infirmities which would make them a burden on the general public. Large numbers were also refused admittance into the United States because the quota of the country of their origin had already been filled.

The legislation which President Coolidge will recommend to Congress will, in a large measure, alleviate present immigration conditions, particularly at Ellis Island, the New York immigration station. Several New York newspapers took the lead in denouncing the terrible overcrowding at Ellis Island at the recent rush to enter the United States when the quota for the new immigration became effective, and a few days ago the British Ambassador to the United States criticised, in a mild way, the conditions prevailing at Ellis Island, with particular regard to British immigrants. The criticism of the British Ambassador has no significance in the new plans as, while American newspapers to a large extent admitted that his criticism was to some extent justified, it was pointed out that the question was entirely American and the British envoy was slightly out of order in making a press announcement.

No other immigration station in the United States has been so crowded as Ellis Island and entrances have been expedited on several occasions by routing steamers to other ports of entry when the New York station was overcrowded. Under the new plan, however, the prospective immigrants are to be examined at the point of their embarkation. By such an examination it is expected to weed out all those with physical infirmities or chronic diseases as well as paupers, mental or moral undesirables and others who eventually will be refused admittance to America upon their arrival.

U. S. STILL HOPES TO AVERT COAL STRIKE SEPT. 1

Neither Side Dares Accept Responsibility Of Stopping Supply

(BY UNITED PRESS)
(Special To The China Press)

Washington, Aug. 20.—The Government is still hopeful that the coal strike threatened in all eastern anthracite coal mines on September 1 will be averted. The Cabinet is under the impression that neither the coal operators or the miners dare assume the responsibility of stopping the country's coal supply.

In the meantime the conference between operators and miners at Atlantic City remains deadlocked as the unions are against insisting upon their original demands.

President Coolidge is silent concerning his plans in the event the government's hand is forced by the threatened strike becoming a fact.

PEKING AROUSED BY ARROGANCE OF MILITARIST

Orders Arrest Of Foreign Boy Without Provocation

(Reuter's Pacific Service)

Peking, Aug. 18.—The arrest by Chinese police on Thursday evening of Mr. Eric Thunder, son of Mr. Charles Thunder, architect, has aroused no little resentment among foreigners in the Capital.

The circumstances are as under: As the young man was cycling to his home at Taomeichang and turning from Wall Street into Shunchihmen Ta Chieh a boy dashed across the street, with the result that he and the bicycle met. The boy was more shaken than hurt and the policeman on duty did not take a serious view of the incident, for he did not attempt to detain Mr. Thunder.

Before the latter moved off a military officer in a motor car with the usual guard on the foot-board stopped, and insisted upon the policeman arresting the young foreigner. This was done, and Mr. Eric Thunder was taken to the police-station near by. He was not allowed to telephone to his parents, and was badgered by the officer to admit his guilt. The threat was added that if he did not do so he would be detained for 24 hours.

Finally he succeeded in getting through on the telephone to his father, who communicated with the British Legation. The latter in turn telephoned the police station, but by that time the authorities were apprised of what had been done and had apparently hastened to release their prisoner.

MUCH CEREMONY AT OPENING OF BIG SOVIET FAIR

250 Foreign Firms Represented; Exhibition Covers 200 Acres

(Reuter's Service)

Moscow, August 20.—The opening of the Industrial Exhibition of the Alliance of Soviet Republics was the occasion of a solemn public ceremony. The congratulatory speeches were made amidst demonstrations of enthusiasm. Two hundred and fifty foreign firms are participating in the exhibition, which is divided into 115 sections and occupies an open air site of 200 acres on the right banks of the Mockra River, adjoining the Neskoutchni Park on the outskirts of the city.

M. Chicherin, who was loudly acclaimed, dwelt on the international importance of the exhibition. He was followed by M. Krassin who emphasised the economic consequences to be expected as a result of Russia's "capacity for self-help."

All the foreign representatives were present.

The Chinese Delegates presented a banner to the exhibition as a symbol of union among the Eastern peoples.

The ceremony concluded with the singing of the International Hymn by the crowd which stood bareheaded.

Chinese Troops Will Also Weave Cloths

(Eastern News Agency)

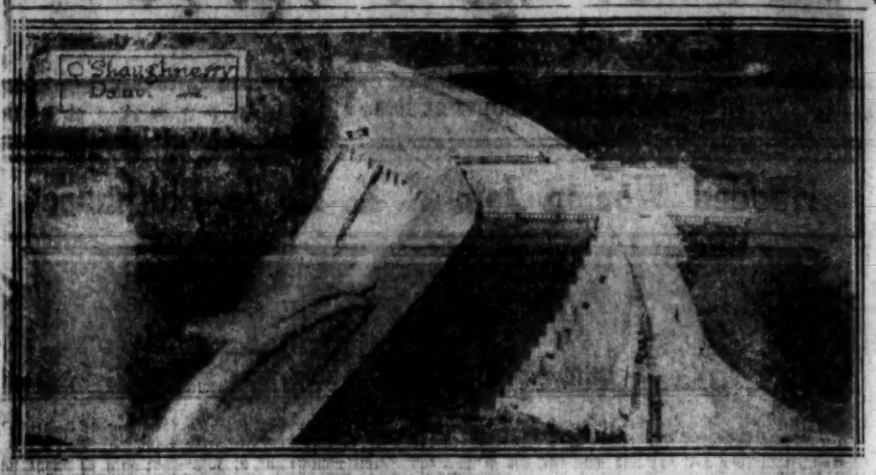
Tientsin, August 18.—According to a Chinese press report, General Wang Cheng-pin has, in conformity with the principle of turning soldiers into workmen, established a factory for the 23rd Cavalry Regiment under his command at a cost of $25,000 which has been raised by collecting one month's wages of the officers of the Regiment. With this capital, General Wang intends to buy weaving machines, with which to make 32 soldiers engage in work by turns, and to divide the profits into equal parts between the officers and ranks of the Regiment.

Russian Prince Is Murdered In Tientsin

Prince Argukinski-Dolgorukoff, who arrived in Tientsin a few days ago from Vladivostok and was staying at the Russian Concession, was murdered in Tientsin last Thursday, according to the North China Mail.

The Prince was walking along Rue Lafille in the French Concession when, near the Cafe de Paris, he was suddenly attacked from behind by a Chinese carrying a stone. One severe blow on the back of the head knocked the prince senseless and he died within a few minutes. The Chinese, who is believed to be crazy, was arrested.

San Francisco Has New Water Supply



THE O'Shaughnessy Dam has been completed, making an immense lake out of the Hetch-Hetchy Valley to supply water to San Francisco. The dam cost $5,000,000, and more than $150,000,000 will be spent to pipe the water to the Golden Gate. The dam is 430 feet long and 140 feet wide at its base. The lake formed by the dam will hold back 93,000,000,000 gallons of water. Owing to its almost inaccessible location, Sierras, it has taken 8½ years to build the dam.

Hongkong Badly Battered By Typhoon, Peak District Hardest Hit; Ship Losses

(Continued from Page 1)

rain and combined with the cries of the wounded, created a condition of horror which those who went through it will never forget. One man went mad, leaped from a balcony and broke his neck.

"The destruction that met our eyes at daylight was sickening to behold. Walls and houses that had withstood the floods and typhoons of recent years were down, a number of people being killed in the fallen buildings, and few, if any, structures had a whole roof left. Fortunately there was no flood, so that some of the crops could be saved, although the storm had taken up a lot of the growing grain by the roots.

"On the 7th inst. about 4 p.m., another typhoon came along, accompanied by a heavy rain, and more walls and houses crashed down, while some that had been repaired were wrecked a second time. The water rose and flooded the whole surrounding country. The inhabitants sought to save as much as possible on rafts and tops and many sought refuge in the roofless, wall-less temples. The water rose to from 4 to 6 feet in the city, but fortunately receded the next day, too late to save the little that the typhoon had left of the crops.

"To add to the misery of the victims of the calamity, food prices have begun to soar owing to the loss of the rice crops.

"We have just returned from Haimen and found that all along the river (120 li), the typhoon has done its work as never before in the memory of any living man. Houses, huge trees and rocks have been thrown about as mere playthings and on both sides of the river, large ships have been carried far inland and left high and dry. Some of these have landed amongst houses, others in clumps of trees or against rocks, some were broken in two and turned upside down or onto their sides. Hundreds of smaller boats were smashed to pieces.

"Some of the villages were levelled to the ground, with not a house left, and in one village of 200 families, only three remain to tell the tale. In some of these places the water is still standing and the dead lie where the storm caught them.

"In Haimen all the houses along the water front were wiped out except the Standard Oil Company's tanks and quarters, while the pier was taken away. Large pontoons were lifted up and dropped among the houses, as well as large ships. In one street we counted 26 boats, many of them of considerable size. Little damage was done to houses along streets a block from the water front and many of the better constructed ones did not suffer at all.

"We hear that other cities all around as have suffered more or less."

Shipping Losses Heavier Than First Reports Indicated

(Reuter's Pacific Service)

Hongkong, Aug. 19.—Captain Jowitt and the Chief Officer, Mr. Mathieson, of the Loong Sang were saved. The temporary Chief Engineer, Mr. J. V. Barron, and Mrs. Barron were last seen by the Captain, who saw them washed overboard. The missing body of Mr. Black, one of the Loong Sang's engineers, has been recovered. Mrs. Black had been on board with her husband a few minutes before the typhoon started. Captain Pennyfather of the steamer Kalgan saved one of the Chinese crew of the Loong Sang. He saw two Europeans swimming and drifting past the Kalgan and twelve members of the crew on a raft to whom he was unable to render assistance.

The following more important shipping casualties have so far been ascertained. The submarine L9 and the Chinese-owned steamer Haldis are ashore at West Point. The steamer Suntak is stranded on a rock on the east end of the small Green Island and is listing. The river steamer Tailee is partly submerged off the Kowloon Dock building berth.

On Stonecutters' Island the French steamer Reims, apparently undamaged, and the Chinese steamer Wasun are stranded on a sandy beach. The Canton river-steamer Kwongsai is on the rocks with a hole in her bottom and her stern down. A Kowloon Dock Co.'s salvage vessel is in attendance. The Chinese steamer Chekiang and the steamer Saichau are ashore at Chinwan Bay. The No. 2 Police launch is ashore at Chunghue Island.

The Indo-China S.N. Co.'s steamer Chak Sang and the China Navigation Co.'s steamer Tean grounded at North Point but have since been refloated. The United States Shipping Board's freighter, Lake Farrar, is ashore at North Point opposite the Ming Yuen Gardens. The river-steamer Tinshing is ashore at Chinwan Pass. The Ginyo Maru with five stern plates bent and twenty frames damaged is going into dry dock at Kowloon. The Sekino Maru lost her propeller.

The roof of the coolie shelter at the Peak was blown off. The Peak tram station was damaged. All builders' matsheds on the Peak were completely destroyed. The Peak Road is littered with blown-down trees. There are holes in the roofs of Lugard Hall and May Hall of the University. A part of the retaining wall of Sir Robert Ho Tung's house collapsed. Soldiers are assisting in clearing the debris from the public roadways.

The submarine L9 was one of the British reserve submarines. She was lying at the Naval camber with three or four members of the crew on board, sufficient to fire rockets in case of emergency. She broke her moorings during the typhoon and was washed about. The camber became unmanageable and came up against the side of the seawall, smashing the conning-tower. Lieutenant Dickson directed the men to jump ashore which they did, Lieutenant Dickson remaining on board with a view to securing the L9 but she drifted away to the west. Lieutenant Dickson then jumped into the harbour and swam to a buoy. Able Seaman Treggus of H.M.S. Tamar swam out with a line from the steamer Ginyo Maru from the deck of which the Japanese crew threw out life buoys. Lieutenant Dickson and Seaman Treggus were eventually hauled on board the Ginyo Maru.

At the height of the typhoon a Kowloon ferry boat ran into the Naval camber where she collided with the sank one of the Naval steam-launches. The oil-tanker Karki has been refloated. She is undamaged.

Hongkong, Aug. 19.—Mr. Jeronimo Luz, the Master of the Green Island Cement Co.'s tow-boat, Ilha Verde, interviewed by Reuter's correspondent, said that the typhoon did considerable damage at Macao. At least 50 Chinese houses in various districts collapsed. Scores of dead and injured have been recovered from the debris. Soldiers and firemen are working very energetically in the rescue. The Governor of Macao motored through the city visiting the affected districts.

At least 20 junks and a score of sampans capsized. It is estimated that over 100 persons were drowned. The dredger, Rotterdam, of the Netherlands Harbor Works Co. dragged her anchor and grounded off Chinsan wharf. The Praia Grande was considerably damaged. Big trees were rooted up at Largo Senado and San Lourenpo. The roof of the Catholic Cemetery Chapel was blown off.

The towboat on its journey from Macao to Hongkong encountered considerable wreckage.

Men Who Certified Live Woman As Dead Face Murder Charges

Foreigner And Chinese At Paulun Hospital Summonsed By Police

A charge of homicide against a foreign hospital official and a Chinese doctor attached to the Paulun Hospital is expected to be made shortly in the Mixed Court, it is learned, as a result of the case in which a Chinese woman struck by a motor car on Avenue Edward VII was sent to the Public Mortuary as dead whereas she shortly afterwards came to consciousness and tried to leave the place. She was sent to another hospital but died some hours later and at the inquest medical testimony was to the effect that the shock of finding herself in the morgue might well have occasioned the woman's death.

The foreigner against whom a summons has been issued is Inspector Stey of the Paulun Hospital and the physician summoned is Dr. Tsang Pau-suh. Stey, it is alleged, was the one who signed the death certificate before the woman was removed to the mortuary. Inspector Stey believed by the police to be a German, and therefore summonsed through the Mixed Court. It is understood, claims French protection and has engaged counsel to combat the issue.

Two summonses were applied for by the police, it is understood, under separate articles of the Chinese Criminal Code. In one instance it is alleged that death was due to failure on the part of the two men to give the necessary attention requisite to their profession while in the other a direct charge of homicide is made.

The woman, one Zau San-ze, was struck by a motor car on the evening of July 31. She was taken to the Paulun Hospital and was there declared to be dead. A death certificate was made out and the supposed corpse was sent to the mortuary. Several hours later the mortuary attendant found the woman wandering about the premises. She was sent to another hospital and for a time it was believed that she would recover. She died, however, two days after the accident.

Peking Day By Day

to pay the troops of Gen. Feng Yu-hsiang, which must receive priority over everything else. It might be recalled in passing that it is General Feng's troops garrisoned some ten miles outside the walls, who are the official guardians of Peking. Next in order is the Chinese students in Japan, $25,000; Educational Expenses, $33,000; President's Office (at present the Governor cabinet), $100,000; Judicial Reforms, $2,474; Ministry of War, $30,000; Sinking Fund for Treasury Notes, $100,000; Ministry of Finance, $19,000, and Administrative Expenses, $29,000, making a grand total of $452,660 monthly.

In conclusion Mr. Hsueh states that even during the most profitable months the collection never amounts to more than $240,000 while the average month usually runs between $150,000 and $180,000.

Weatherbe Has Escaped From Yunnan Bandits

(Continued from Page 1)

ties to afford protection to the British missionaries at Tsaoshih.

Each day the bandits are becoming bolder and now have adopted a most threatening attitude toward all law-abiding citizens, writes the Tsao Chuang correspondent of the Far E Times. It is practically impossible to go beyond the walls after nightfall without a strong guard —even only as far as the railway station, a distance of some two li.

During the past ten days marauding bands from the north have made three forays on Tsaochuang itself, but on each occasion were driven off by the local garrison stationed here. Merchants transporting goods between Tsaochuang and Yihsien, about ten miles away, are compelled to send heavy guards to protect their shipments.

Several depredations by bandits have occurred on the outskirts of the city, these bandits, it is believed, having been amongst those taken into the Provincial Army at the conclusion of the negotiations resulting in the foreigners' release. Their method of operation is quite simple. Before entering a small shop they discard their uniforms and then demand that the shop keeper furnish them with many small luxuries free of charge, as his "contribution" for protection. After they have taken all that they wish, they effect an orderly retreat and if the merchant in question hastens to the military for protection, he is informed that his application will be attended to in due course of time. Meanwhile the soldier-bandits have redonned their uniforms, and are patrolling their beats as officers of the law. In their new "disguise" they enter the same shop again and demand a second tribute for protection, this time of course against bandit raids.

It is small wonder that commerce is practically at a standstill, and that several of the merchants have put up their shutters for an indefinite period.

According to railway officials here a second attack on the Tientsin-Pukow Railway was narrowly averted two nights ago, when a large band of bandits was dispersed by Anhui troops about five miles from Changpaiin. The Railway officials said that the bandits were armed with shovels and pickaxes, in addition to their rifles and revolvers, and were evidently intent upon wrecking the line between the time of the last down train, which arrives at Pukow early in the evening, and the departure of the "Blue Express" shortly after midnight.

The bandits were dispersed after a hot fight lasting more than two hours, and judging from prisoners captured they appeared to be much better equipped than those taken previously.

There is still considerable anxiety felt among the leading members of the local gentry with regard to the soldiers enlisted in the army under Sun Mei-yao, since about a week ago a mutiny was narrowly averted. When the last of the Chinese prisoners were released from the top of Paotzuku, according to an arrangement concluded between the Chinese authorities and the bandits, the ransom was not paid in full. The sum agreed upon was $50,000 to be paid in four instalments. It was stated that the first instalment of $10,000 was paid, and the bandits fulfilled their part of the bargain by releasing all their captives, including the three score children, many of whom were in a pitiable condition.

The second instalment of $15,000 which was promised for August 1 was not forthcoming. Eight days later the temper of the bandit-soldiers developed into an ugly mood and they refused to obey the commands of their superiors. Unable to cope with the situation the officers immediately summoned "General" Sun Mei-yao, who ordered his former followers to abide by the commands of their superiors and not make further trouble. The latter agreed to wait until dawn for their money.

General Sun then approached the gentry and demanded the money, stating the situation quite frankly and openly, and saying that unless the money was paid he would not be responsible for the actions of his former subordinates. That night $5,000 was raised in the quickest possible manner and turned over to General Sun before morning, the gentry promising that the remainder of the instalment would be paid within ten days, or as soon as it could be obtained from General Tien, the Tuchun at Tsinanfu.

Eight days have elapsed and the money has not yet been paid, nor is there any sign that it will be paid, since Tuchun Tien has washed his hands of the whole affair by tendering his resignation, thereby absolving himself from any further responsibility.

Meanwhile the storm clouds are again gathering at the soldier-bandit training camp, and a fresh outbreak is feared.

'Round The World In a Day At Universal City

Foreign Architectural Wonders Which Have Been Brought by Studio Artisans to California

Increased transportation charges mean nothing in the life of a visitor to the motion picture studios of California. He can better the record of Jules Verne's hero in "'Round the World in Eighty Days" by seventy-nine days at least. Somaliland and Siberia, Capetown and Carthage, Monaco and Manchuria, Benares and Bloody Gulch, Yukon and Yokohama, Michigan Boulevard and Main Street—all have been transported on the Magic Carpet of the Technical Director to Los Angeles.

Nestling in the beautiful San Fernando Valley, a few miles from the centre of Los Angeles, Universal City affords the would-be-globe-trotter an opportunity to circumnavigate the world without the inconveniences of seasickness, passport regulations and customs duties. One can find here every form of architecture, every period of design, and virtually every type of edifice. Palace and hovel, marble castle and 'dobe hut, igloo and tepee, thatched cottage and towered pagoda —if it is necessary to the production of a motion picture, the technical department's studio artisans can build it, accurately and speedily.

The above illustration gives a meager idea of the variety of buildings erected at Universal City within the past few months. The Spanish mission on the left figures prominently in Carmel Myers' forthcoming release, "The Kiss"; the set on the right represents a section of London's wierd Limehouse district and was the locale of much of the action in "Reputation," Priscilla Dean's latest Universal-Jewel; the imposing structure in the distance is the $200,000 Monte Carlo set erected for Erich Von Stroheim's "Foolish Wives," which it is predicted will cost more than a million dollars, and in the center of the picture is a typical frontier mining town, the locale of Harry Carey's next picture, "Desperate Trails." Beyond the mining camp may be seen a charming New England village built for "The Beautiful Gambler," adapted from the Peter B. Kyne novel, "Renunciation" and starring Grace Darmond.

Universal City comprises 1,200 acres and was founded in 1912. Virtually every motion picture star in the United States has worked there—nearly every prominent visitor to this country has viewed its novel beauty.

TWO MAIL BOATS ARRIVE THIS WEEK FROM THE STATES

President Grant Comes Thursday And Empress Friday

Two trans-Pacific liners, the President Grant from Seattle and the Empress of Asia from Vancouver, will arrive in Shanghai this week, and only two more mail boats will leave for America within August.

Bringing a heavy mail from the States, the President Grant is due here from Seattle via Yokohama and Kobe next Thursday, and will sail for Hongkong and Manila on Saturday. The Asia which was to have docked at Yokohama yesterday morning, will arrive at Woosung next Friday, and sailing for Hongkong the same day.

The next mails for America are to be dispatched on the Empress of Australia, for Vancouver on August 27, and the President Jefferson, for Seattle August 29.

The T.K.K. steamer Korea Maru will sail from Woosung for San Francisco via Japan ports and Honolulu next Thursday, and the tender with outgoing passengers for the steamer will leave the Customs jetty at 4 p.m. As the Korea takes 25 days to San Francisco, only supplementary mail will be sent.

Bringing the European mail of July 13, the M.M. steamer Andre Lebon, which left Hongkong at 6 o'clock Saturday evening, will dock at the S. M. R. Whangpoo Wharf about 8 o'clock this morning. The vessel will sail for Kobe and Yokohama at 7 o'clock Thursday morning.

The P. and O. liner Mantua, another mail boat from Europe is expected to leave Hongkong at 4 o'clock Thursday afternoon, and arriving in Shanghai next Sunday.

Mail for Europe is to go on the N.Y.K. steamer Suwa Maru next Saturday. The steamer goes to Marseilles, London and Antwerp via ports at daybreak Saturday, and the tender with outgoing passengers will leave the Customs jetty at 5 o'clock Friday evening.

Klu Klux Klan Creates Terror In Oklahoma

(BY UNITED PRESS)
(Special To The China Press)

Tulsa, Okla. Aug. 20.—Klu Klux Klan-ism continues to spread through this section of the country despite the institution of martial law. Acts of lawlessness, including many whippings, continue to be nightly occurences with the police apparently unable to do anything to check the white-robed night riders.

The situation is reported to be assuming alarming proportions all through the South. At Atlanta the Governor of Georgia has also threatened to institute martial law as the result of two lynchings on Saturday.

Fire Does Small Damage On Pres. Grant At Sea

Fire which broke out in No. 4 hold of the President Grant while the vessel was en route between Yokohama and Kobe did only a small amount of damage, according to information received here last night. The fire was kept under control by steam until the vessel docked at Kobe yesterday morning when it was extinguished with the assistance of land apparatus. The President Grant, with a big passenger list and mails for Shanghai, will arrive on schedule sometime Thursday morning.

Violet Wins Second Race For Club's Challenge Cup

Ideal Conditions Give Sportsmen Fine Day In Yangtze Off Woosung; Undine Finishes Second With Fire Burst Of Speed

The second race for the Shanghai Yacht Club's Challenge Cup was sailed on Sunday over a triangular course outside Woosung, down the Yangtsze. The start was fixed for 10 a.m. from the Customs Outer Station at Woosung, when five boats crossed the line in the following order:

Violet, sailed by Mr. E. T. Byrne, Commodore 10.00.00
Haikuan, sailed by Mr. A. E. R. de Jongh 10.00.05
Ella, sailed by Mr. H. E. Jones 10.00.25
Haven, sailed by Mr. H. E. Middleton 10.00.45
Undine, sailed by Mr. H. M. Mann 10.01.05

The course set was out over the bar, into the Yangtsze, leaving the Quarantine Buoy to starboard, down round the Blockhouse Buoy to starboard and back to the starting line at Woosung, a distance of 14 miles. Ideal conditions prevailed for the time of year, a steady S.S.E. breeze blowing at about Force 2.

The Violet quickly took the lead, followed by the Ella and once outside Woosung all felt the full force of the ebb that was running. It was a free reach across to the first objective and the leading boats, failing to allow for the strong tide sufficiently, were obliged to change course to clear the Quarantine Buoy. The Haven, which was closely following, was in danger of making a similar error but was just able to avert it in time, while the Haikuan and the Undine, some distance astern, profiting by the experience of the leading boats, stood well up until the Buoy was safely negotiated. The Violet was first round, after which she went rapidly ahead and had established a tremendous lead by the time she reached the Blockhouse Buoy some five miles further down.

BEAT TO BLOCKHOUSE

From the Quarantine Buoy down to Blockhouse it was a beat, most of the yachts having to make three tacks to reach it. A fair amount of sea was experienced in the vicinity of Blockhouse Island. The Haven got the better of the Ella in rounding the Buoy and ran into second place, a considerable distance astern of the Violet. All three boats made for the Pootung shore, where the water was quieter and there was less tide.

The return to Woosung was a run before the wind and spinnakers were set, the breeze becoming gradually lighter and unsteady. The Ella and the Haven again had a wonderful ding-dong race together, the Ella several times getting abeam of the Haven, only to drop astern again, both boats gaining steadily on the Violet.

It is at running that the Undine excels and she came along with an astonishing turn of speed, sailing right through the Ella and the Haven, but just failing to overtake the Violet. She finished strongly in second place on actual time, a remarkable performance considering she was towing a heavy dinghy throughout the race. Unfortunately she has not been rated and so could not be officially counted in the race.

The Ella succeeded in drawing ahead of the Haven in rounding the breakwater at the entrance to the Huangpoo and finished third on actual time, with the Haven fourth and the Haikuan last, a long way astern. From the times below it will be seen that less than three minutes separated the first four boats at the finish, which shows how keenly the race was contested. It was not without incident either, both the Violet and the Haikuan being unfortunate enough to break their spinnaker booms.

Many regrets were expressed at the absence of Mr. Frank Gates' Oistos, which won second place in the first race, for she was thought to have a very good chance of winning. Unfortunately, on the way down to Woosung on Saturday she had the misfortune to meet with an accident, breaking the gaff of her mainsail. This necessitated her return to Shanghai and as the damage could not be repaired in time she was unable to put in an appearance on the starting line on Sunday morning.

FINISHING TIMES

The finishing times were as follows:

	Hrs.		Secs.		Rating	Handicap
No. 1. Violet,	12.	36.	05.		3.0	Scratch.
No.—Undine,	12.	37.	40		—	Not competing officially.
No. 8. Ella,	12.	38.	20.		3.0	Scratch.
No. 4. Haven,	12.	38.	50.		2.2	4 min 18 secs.
No. 2. Haikuan,	12.	50.	25.		2.5	2 min 30 secs.

The corrected elapsed times were:

		Position
No. 4—Haven,	2 hrs. 34 min. 32 secs.	1
No. 1.—Violet,	2 hrs. 36 min. 05 secs.	2
No. 8.—Ella,	2 hrs. 38 min. 20 secs.	3
No. 2.—Haikuan,	2 hrs. 47 min. 55 secs.	4

The Haven thus won and having also won the first race a fortnight ago this gives her a total of 14 points to 5 each won by the Oistos and the Violet, so that she now holds an unchallengable lead of 2 points.

The third and final race, which was to have been sailed over a course up river next Sunday, has therefore been abandoned and the Haven wins the Cup for 1923. Her owner, Mr. H. E. Middleton, who sailed her in both races, has received many congratulations on his success.

Aerial African Golf Latest Sport

AFRICAN golf is the favorite pastime of aviators, and around Los Angeles army fliers have taken up a new game—aerial dice. Giant dice are placed upon the field and the airplane propeller started. The air blast scatters the die rolling down the field, and the numbers are read. Then the airplane goes into action again and keeps repeating the play until it makes its "point" or gets the unfortunate seven, in which event baby gets no shoes.

Chinese Amateurs Defeat "Meteors"

The Chinese Amateur Baseball team trimmed the Shanghai "Meteors" Sunday afternoon on the Y.M.C.A. ground to the tune of 7-3. Many spectators witnessed the game. The enthusiatic rooting and cheering of several of the lady fans present made the game interesting from start to finish. Curiously, although they are friends and relatives of the Amateurs, they rooted and cheered for the losers.

The game started with the Amateurs taking the field with T. L. Yu on the mound and K. S. Chang behind the bat. The first two batters that came up were struck out and the third one died on third trying to steal. The Amateurs opened the score by two runs and kept leading the score throughout the nine innings. In the sixth frame when the score stood at 6 to 2, Albert Chan relieved Yu on the Amateur side and Cynn took the pitching position in place of Chen on the Meteor side. Both worked well and the game ended with a margin of four runs.

A third game will be played between the Amateurs and the Korean team on the Y.M.C.A. ground Wednesday afternoon starting at five o'clock. Each team took one game during the last two games. Albert Chan will pitch for the Amateurs and Kim for the Koreans.

GALLOPERS TAKE SUNDAY'S GAME FROM JAPANESE

John Scott Stops The Unions Cold; Bills And Bullard Hit Well

The Japanese baseball team, the Unions, was defeated again Sunday by the Gallopers in a one sided and generally uninteresting game, the final score being 11 to 9. The Japanese kicked the ball all over the lot, and in addition were helpless before John Scott's pitching. Every man on the Shanghai team got a hit except Hirsh, and both Bullard and Bills slammed out three baggers. Scotty held the Unions to three blows.

Recreation Club Is Vanquished By Cricket Club In 2-Day Match

An interesting two days' match resulted in a victory for the Cricket Club over the Recreation Club on the latter's grounds, Sunday after the losers had gained an advantage in the first day's play.

The batting was opened by the Cricket Club, four of their strongest batters going down rapidly before the excellent bowling of C. E. Ollerdessen and Wilson after having scored an aggregate of only 32 runs. But Barnett and Hansell, who followed played in perfect style and scored very freely, until the latter was bowled out by Divecha, Barrett remaining but a few minutes longer. With the failure of the remaining batsmen to accomplish anything noteworthy, the innings was finished off for 172.

One expensive disaster was suffered by the Recs during their half hour at the wickets, Divecha being run out when he had scored only six runs. Time was then played out by H. B. Ollerdessen and Willis, the score standing at 55 for one wicket when the stumps were drawn.

But with the resumption of play yesterday, the Recs fell off badly the second wicket falling at 5: H. B. Ollerdessen was the only player to have any success against the bowling, running up a 66 before being bowled by O'Hara. Wilson added 13, but with one man short this brought the total up to only 116.

Less caution was shown by the Cricket Club batsmen in their second innings, Hayward and Claxton opening in impressive style with scores of 49 and 60 respectively. After Leach, Muriel and Barrett had been disposed of very cheaply, the innings was declared at four o'clock, with seven wickets down for 148. Brilliant fielding by the Recs held the score down.

When Madar was run out for 11 and Divecha stumped for six, it was obvious that the Recs could not hope to make 205 in two hours and that their only chance was to play out time. H. B. Ollerdessen contributed 38 to the score of 63, when his wicket, the third, was bowled. Wilson and Clark put on some excellent cricket when they wre associated for the seventh wicket, scoring 22 and 27 respectively. But a minute or two from time, the last wicket fell at 145, the Cricket Club thus winning the match by 59 runs.

RECS SECONDS WIN OVER S. C. C.

A weak Cricket Club 2nd XI was badly beaten by the Recs 2nd XI by 1 wicket and 123 runs on the former's ground. Norman was the mainstay of the S.C.C. side, scoring 23 not out. Smedley put his shoulder out in attempting a big hit, which was quickly attended to by Dr. O'Hara.

Good batting efforts came from F. Ollerdessen 55, V. Evans 23 and Shroff 22.

Shroff bowled very well, taking 4 wickets for 24 runs and bowled the only 2 maidens in the game.

How Many Hairs Came Out Today?

The New Discovery,
GERMOL
Holds Hair Tight in the Scalp.

Stop worrying now, if you see yourself getting bald. There is one way to stop your hair from falling, and to make it grow in the most luxuriant manner. GERMOL is the new discovery that produces this amazing result. The first few days will prove it. GERMOL brings about such great vigor in the hair roots that the root-sacs grip the hair strands. The result is that your hair not only stops falling but grows luxuriantly and it brings back the original, youthful color to the hair. It is not, of course, a hair dye. Your dandruff will disappear as if by magic, and scalp itching will stop. GERMOL is easy to use, and has a pleasing odor. As a hair invigorator, and a safe means of bringing grey and faded hair back to its original color, it has no equal. Stop your hair troubles from today on: use GERMOL.

FOURTEEN YEARS' SENTENCE GIVEN IN MURDER CASE

Two Get Long Terms, Third Given One Year

Sentence of fourteen years' imprisonment was imposed by Assessor Allman and Magistrate Yui at the Mixed Court yesterday upon the two principal accused in the case resulting from the murder of one Hyu ...ang Ing in an alleyway on Foken Road last April. The third accused was sentenced to one years imprisonment and all are to be expelled from the Settlement at the expiration of their terms.

The murdered man was described by witnesses as the "chief of the loafers," while the first accused was characterised as the head of a loafer gang and a notorious gunman, said to have committed five murders outside the Settlement last year. Hyui was lured from his home on Third Road early one morning and led to the alleyway, where he was shot through the head. Police testimony was to the effect that the first accused fired the shot and afterwards boasted of the murder to friends.

Mr. Schoenfeld appeared for the accused and Mr. Newman for the family of the deceased.

Spain Prepares To Subdue Moroccans

(Reuter's Service)

London, Aug. 19.—A telegram from Reuter's Paris Correspondent records the rapid consummation of military plans, which have been carried out on a large scale for several months, with the object to subjugating the enemy tribesmen in Morocco. A converging movement has just been successfully terminated for the separation of the Marmoucha and Tzerouchen tribes.

On the other hand Reuter's Correspondent at Madrid announces another set-back to the Spanish forces, which have been compelled to fall back near Tafaraute, suffering 250 casualties, including a Colonel and twelve other officers killed.

(French Wireless through Reuter)

Paris, Aug. 19.—It is reported from Madrid that the desperate resistance of the rebels in Morocco forced the Spanish columns in the Melilla district to fall back temporarily. The Spanish lost 12 officers, including a Lieut-Colonel, killed and 211 men killed and wounded, including 81 native troops. The High Commissioner has left for Melilla. All men on furlough have been recalled. The Under-Secretary of State for War declared that the operations will continue, and the losses suffered will be immediately made up by new reinforcements of men and material.

Commissioner To Hear Three Cases Today

U. S. Commissioner Nelson E. Lurton will hear three cases this morning beginning at 9:30 o'clock. Paccano Solano, a Filipino who just arrived in Shanghai to engage in fisticuffs, will be charged with having done some of his training on a rickshaw coolie Sunday night in the Public Gardens. Two sailors on an American ship will also be charged with larceny.

Steamer Fookyuen Runs Ashore In River Near Nantou

(Independent News Service)

Ichang, Aug. 10.—The steamer Fookyuen left Ichang this morning and near Nantou about sixty li above here the steering gear failed to work properly causing the boat to run wildly straight ahead for the rocky shore. Fortunately, the steamer struck the bank where it gradually slanted upward just a few feet beyond a solid mass of rocks about 25 feet high.

The steamer had sprung a leak, but she stopped only about half on hour and then proceeded a mile up stream. The Captain afterward decided to take the vessel back to Ichang, and the steamer is now discharging part of her load of cargo and will probably proceed up river again tomorrow.

Koo Ready To Treat With New Soviet Delegate

(Reuter's Pacific Service)

Peking, Aug. 19.—Questioned with regard to the mission of M. Karakhan, the Soviet representative to China, Dr. Wellington Koo at the Waichiaopu today stated that the Chinese Government would be ready to treat with him as it had been to treat with M. Joffe. It was the desire of the Government to see the Sino-Russian negotiations resumed.

Advocate Early Peking Election

(Reuter's Pacific Service)

Peking, August 20.—General Wang Chung-pin and Mr. Wu Ching-lien are also advocating an early Presidential election. General Tsao Kun's Parliamentary supporters have taken initial steps, each Member of Parliament having received a preliminary payment of $900. Peking Members of Parliament are advising their colleagues at Shanghai, Tientsin and Hankow by telegraph to return to Peking to assist in the election.

Hong Doubles Final Tomorrow

The final of the Hong Doubles will be replayed on the Hotel Majestic courts tomorrow afternoon, after having been left unfinished at two sets all. Messrs. D. E. M. Drummond and H. Tonnraint and J. L. Wade and H. Collaco are the contestants. Play will start at 4.30 o'clock.

Dutch Official's Wire Killed In Motor Accident

(Reuter's Pacific Service)

Peking, Aug. 17.—Today the remains of Madame Cwyang, the wife of a Dutch official in the Waichiaopu, were cremated at the Japanese Crematorium. Three days ago while motoring with her husband to the Summer Palace their car collided with another and she received such serious injuries that she died a few hours after admission to the German Hospital.

To Take Up Hupeh Notes

(Dah Tong News Bureau)

Peking, Aug. 20.—Hsiao Yao-nan, Tuchun of Hupeh, has telegraphed to Peking, Pacting, and Loyang that as instructed by General Wu Pei-fu he has directed the Customs at Ichang and Hsinti each to remit $50,000 to Wang Yu-chin so that the provincial notes of Hupeh may be cashed at Shashih and Ichang. Hsiao promises to raise another sum of $100,000.

Mah Jongg Thieves Given Jail Terms

For the theft of 35 mah jongg sets, valued at $250, two Chinese were sentenced to four months' imprisonment by the Mixed Court yesterday.

The proprietor of a mah jongg factory in Urga Road stated that he had given a number of sets to the accused for carving and that they sold the sets and fled to Soochow, where they were located and arrested on a despatch warrant.

Wu Pei-fu Finds A New Gold Mine

Peking, Aug. 18.—General Wu Pei-fu has found a gold mine and has lost no time in getting it developed. The mine is about ten miles from Loyang, the reports say, and a company has been organised to exploit it. The General, according to reports is a member of the company. Development in this case will be under the direction of foreign engineers. The ore is said to be especially good.

T.K.K. ANTICIPATE ANOTHER BIG LOSS DURING THE YEAR

Losses Swallow Up All Reserve Funds; Deficit Y. 3,330,000

It is anticipated that the Toyo Kisen Kaisha will sustain another big loss on its operations during the fiscal half-year just ended. Exact figures are not available as yet owing to the fact that business reports from various parts of the world have yet to arrive, but that the final audit will show a loss is a foregone conclusion. The deferred business reports will only show whether the loss anticipated is bigger or smaller than the actual loss and, in this case too, the difference will not be very large.

Last fiscal half-year, the shipping firm sustained a loss totalling Y.3,437,000 in round numbers, which subtracted from the reserve fund then amounting to Y.3,450,000, left only Y.13,000 odd to be carried over to the period now under review.

The present period's losses are expected to total about Y.3,330,000 odd. This amount will be subtracted from the dividend equalisation reserve funds and from the special reserve fund, both of which amount to Y.3,950,000. Thus, by the end of the next six-month period, all the different reserves will have vanished and positive losses will have to be sustained, unless the situation improves.

The main cause for the bad state of affairs is primarily the stagnation that prevails in the carrying trade all over the world. In the particular case under consideration, the T.K.K. is losing largely because of the inactivity of Japan's foreign trade and because of the keen competition offered by American and British steamship lines on the Pacific routes.

T.K.K. vessels have always had a satisfactory number of passengers on the outward voyage, but on the homeward trips, he numbers of passengers and the amount of freight carried was poor as good. The South American line has been a drag on the firm, especially since the importation of Chilean nitrate to Japan was called off.

13-Year-Old Boy Gets Hole In One

St. Louis.—Robert C. Hartmann, 13 years old, has joined the Hole-in-One Club, and probably is one of the youngest members of the Mythical golf organization in the country. Young Hartmann was playing his father on the municipal course when he made his one on the ninth hole. The youth used a brassie on the hole, which is a distance of approximately 160 yards.

PREMIER KATO MAY QUIT POST DUE TO ILLNESS

Japanese Politics Again In Turmoil; Cabinet Changes Likely

(Reuter's Pacific Service)

Tokio, August 20.—While his condition is not considered dangerous, the Premier, Admiral Baron Kato, is stated to be very ill, and his resignation is believed to be imminent.

(Reuter's Pacific Service)

Tokio, August 20.—Admiral Baron Kato's illness and the general impression that it is unlikely that he will be able much longer to carry the burden of office have led to the prediction in many quarters that Cabinet changes will only be a matter of weeks or perhaps less, thus adding stimulus to the usual activity of politicians as the Diet season approaches. This being the last session of the present Diet before the general elections in May, 1924, any Governmental changes at the present juncture will arouse more than ordinary interest in view of their possible influence on the elections.

(Eastern News Agency)

Tokio, August 19.—In connection with the illness of Premier Kato, rumor is rife that a political change will shortly take place. According to an announcement made today by the physician in charge, the Premier is suffering from chronic colonitis but his appetite is normal and his sleep and temparature are as usual. It is reported, however, that owing to the intense heat the Premier appears to be somewhat fatigued

Mint At Wuchang Closing Down

(Independent News Service)

Hankow, August 15.—The Government Mint at Wuchang will suspend operations beginning from September 1, and the coming close-up is not known. It is reported that while the coins turned out by the Mint used to be grabbed almost as soon as they come out, there seems to be no party interested in the heavy indebtedness of the Mint incurred through the purchases of materials.

Irish President Takes Aero Trip

(Reuter's Service)

London, Aug. 19.—President Cosgrave this afternoon addressed a meeting at Ennis, the scene of De Valera's arrest, without incident. Subsequently he flew in a military aeroplane to Carlow to address his constituents. This flight, which was President Cosgrave's first, is regarded by Clare electors as a venturesome piece of excellent electioneering and a good advertisement for the Irish Air Force.

BREAD SPOILS TEETH

The general belief that the consumption of jams, jellies, and such sweets is responsible for the progress of decay in our teeth, has not been borne out by experiments which were made at the Hygienic Institute of the Leipzic University. Bread was responsible for such troubles. This was shown by taking perfectly sound teeth and coating them with wax into which an aperture was made at one point or another, and there were then subjected to an immersion in a mixture of bread and saliva at a temperature of 37 degrees centigrade. At the end of 33 days many of the teeth showed signs of softening at the exposed points; while 23 days later all showed the softening signs. At the end of 124 days completely developed cavities were apparent in all the teeth under experiment. A similar test with jams and jellies resulted in a complete vindication of the sweets, for the same length of time showed that the fruit acids and the perfumed acids of the preserves had no effect upon the teeth whatever.

England Now Building Two Great Warships

(Reuter's Service)

London, August 19.—The battleships, H. M. S. Nelson and H. M. S. Rodney, are now being built at Chatham. Each will mount nine sixteen inch guns carried in triple turrets. This is an elaboration of an idea already introduced in the Japanese and American navies. Each gun will be capable of hurling a 2,500 shell.

Another feature will be special anti-flash arrangements which embody the lessons learned in the Battle of Jutland where some British ships were sunk owing to shell flashes penetrating the magazines.

San Francisco Plans Harding Monument

San Francisco, Aug. 18.—The Harding Memorial Committee has decided to call upon the general public for funds with the purpose of raising a half million to be used in erecting a monument to perpetuate Harding's memory.

Exchange Fluctuations

Asia Banking Corporation

August 20, 1923

Spot and forward bar silver were each up 1-16d. in London on Saturday. The New York price was unchanged and the London-New York cross rate declined to 455¾. The only changes in our official quotations here today were a drop in the Gold Dollar rate to 69¼ and a rise in the Yen rate to 70⅜.

Our market was steady at the opening but firmed up slightly during the day. In the early part of the morning business was done at 3-0⅝ for August, 3-0-11-16 for September and 3-0⅝ for October-November.

Gold Dollars at the same time were done at 69¾ for near and forward deliveries. However, later in the day there were sellers of Sterling at 1-16d and of Good Dollars ⅛ point above these rates. There were sellers of Yen at 70⅛ for near delivery and 70¼ for forward.

Banks were quoting 3-1¼, 71¼ and 1300 for Sterling, Gold Dollar and Franc Bills respectively. China bought silver in London yesterday and the market is reported as steady. New York report their market as dull and quiet.

Report Phelps Wan's Chinese "Pirate" Shot

Hankow, Aug. 19.—In connection with the attack on the "Alice Dollar" on the Upper Yangtze, Admiral Phelps and the American Consul-General here called on Tuchun Hsiao Yao-nan yesterday. Admiral Phelps is said to have demanded that Commander Liu, who is held responsible for the outrage, be shot summarily. Tuchun Hsiao refused but agreed to refer Commander Liu to the military tribunal for trial and punishment.

WHEN BABY IS CROSS AND LEEPLESS TRY BABY'S OWN TABLETS.

After That You Will Never Want To Be Without Them In The House.

When baby is cross and sleepless there is something wrong and the little one is taking the only means he has of telling it. Under such circumstances the temptation to administer a sleeping draught, or opiate of some kind, is often great, but don't do it unless expressly ordered by a competent doctor who has seen the child. Instead give him Baby's Own Tablets, which are guaranteed to contain no opiates; they send the child to sleep simply because they remove the causes of his sleeplessness and make him feel good and comfortable.

Baby's Own Tablets are a remedy for simple fever, indigestion, constipation, colic, croup, diarrhœa. They make teething easy and destroy worms. Of chemists, or post free, 60 cents the vial, from Dr. Williams' Medicine Co., 60 Kiangse Road, Shanghai.

Libby's Evaporated Cream, *the Flying Ox Head brand*, is always of the same rich and delicious quality. Use it with cereals and Libby's fruits; with it you can make a variety of dainty sweets and desserts. Libby's Evaporated Cream is also a nourishing food for infants and invalids.

The Flying Ox Head on each tin of Libby's milk is your guarantee of perfect purity.

Recognising The Farmers

BY his choice of Campbell Bascom Slemp, of Virginia, as his private secretary, President Coolidge has given the farmers of the United States an unofficial recognition that long has been denied them. Mr. Slemp has been one of the best friends of agriculturists in the United States and fought their battles for them long before such a thing as an Agricultural Bloc ever was dreamed about.

Mr. Slemp is 52 years of age, was born at Turkey Cove, in Lee County, Virginia, and has served his mountain district in Congress since December 17, 1907. He was graduated from Virginia Military Institute in 1891 and later studied law at the University of Virginia. Since 1901 he has practiced law at Big Stone Gap, Virginia, where he makes his home. In 1907, he was chosen to Congress to succeed his father, who died shortly before the date of his election.

He was known in Washington as the best friend of the good roads movement in Congress, and it was largely through his efforts that the Federal Government instituted the Good Roads Division of the Department of Agriculture and that Congress of late years has been paying one-half the cost of better highways throughout the country. His father and himself represented the only Republican district in Virginia.

Professor Schmack of Strasbourg is attempting to register people's blood pressure when they kiss or are kissed. The Professor is well named for his task.

* * *

Maybe the prof. hasn't discovered it yet but there is just a mere perception of an increase in blood pressure when it's a nice, wifely, or husbandly kiss.

* * *

If he measures one of Shanghai's sugary sheba's or shocking shieks on a moonlight night, however, he'd better have Chief Pett and the hose wagon handy to chase the thermometer down again.

* * *

You'll pardon us for calling some of the s.y.t. sheba's but we must have something to counteract their atrocious attack of poor, innocent little cake-eaters and lobby-squats and their libelling of us mere monkey descendants as shieks.

* * *

Shanghai shieks are born, not made. Many try to be but they haven't got that little touch of genius in throwing the old papa cow, and they ain't got the right kinda legs. Shanghai shieks are tall, slender, willowy as the very willows themselves, and their laigs—ah!, what poetry in laigs they do possess. We ain't never seen a Greeks god's legs but they must have been almost as perfect as several Shanghai shieks we could name off hand.

* * *

Shanghai shieks also are good to look upon. Some have little decorative touches about the mouth, quaint misplaced eyebrows as 'twere, that cause a sheba to look, and then keep on looking at this evolutionised mustachio until they naturally look there first—then they are lost because they must, perforce, gaze into the shieks' eyes—and his eyes, ah, ah, ah, and some more ahs—magnetism, hypnotism and all the other ism's and tism's are developed there until the Nth degree triple plus and with a dash of impelling "come to your papa" thrown in for good measure.

* * *

Of course some shieks are also shrieks!

* * *

And the good-looking Sikh at the corner of Honan and Nanking roads is also a shiek.

* * *

Shieks as we have intimated, owe their prowess to four things, in contrast to poor old Hercules who had only a fine crop of hair to boast about. Shieks specialise in that slenderness that passeth all understanding, laigs, eyes and patter. A shiek knows the slang dictionary backwards. He's read all the love poetry ever written, memorised the lines that make any heart start off in high gear, and, being by nature a sheba-physcologist, knows just when and where to run off his line, spring his patter—and garner the s.y.t. adoration.

* * *

Some shieks never seem to do anything but play mah jongg, dance and go sheba-ing. Some are content with a little peck of a kiss for an entire evening's exertion on the 'roof.' They have sore arms when the chit comes around and if their sheba mentions she's a wee bit hungry they dance her around in the kitty-corner and let her take a good inhalation of that night's dinner. Some sheba, of course, don't like roast beef, and then they're stung for hammo and aigs.

* * *

A sheba once told us in confidence that every shiek in this village on the shimmering banks of the Whangpoo thought that it was his divine right to have one, two or as many kisses as his osculatory system demanded on the front door step under the moonlight as payment for all the trouble he'd gone to in showing her the bright lights, for dancing with her, and favoring her with his presence for the evening.

* * *

And another sheba with red hair once confided in us over the teacups that a shiek had let it be known to her that he understood that some people looked upon tripping the light fantastic as nothing more nor less than hugging set to jazz music and he wasn't so doggone particular whether there was any music or not. Still other specimens of the so-called human race called shieks specialise in music, mostly chin-music.

* * *

And some shieks think the so-called human race is a race in the wake of some flapper-flavored sheba of the moment.

PORTUGUESE LANGUAGE

Editor, THE CHINA PRESS

Dear Sir.—The Portuguese as a whole ought, I think, to pity the party who sent in to your valuable paper the first letter anent the above, for I am firmly convinced that he either just left the seclusion of a Mental Ward or is about to get in there.

His mind is totally disorganised, a chronic and uncurable disease is causing it a terrific effect for otherwise he would not have written that nonsense.

Thanking you for the insertion of these few lines, I am, etc.

"Poocham."

Editor, THE CHINA PRESS

Dear Sir.—This letter is not in answer to that written by your mysterious correspondent and published in your issue of 18th instant, as I am not presenting arguments to refute the assertions he has made with regard to the Portuguese language, nor are such letters as he has written deserving of any reply.

I believe he knows it as well, considering that perhaps shame it was that made him not sign his letter to you, not even with a "nom de plume."

As a matter of fact, I cannot imagine how any man not lost to all sense of what is due to the name he uses and the blood that runs in his veins can, without a feeling of shame, cast through the columns of newspaper such a gratuitous insult on the very people with whom he must of necessity associate. I say this on the assumption that your correspondent must be a Portuguese, since he shows such an intimate knowledge of the language he has taken upon himself to vituperate and the affairs of the people he insults.

He must indeed be of a very degenerate type of man who can say in public of his own language, what your mysterious correspondent has done of his own. Imagine, Mr. Editor, if you can, what your feelings would be if an American were to utter such a heresy! Imagine also an Englishman, a German or a Japanese bragging in public print that he does not know his own language or that knowledge of his language is unnecessary!

And this man, this correspondent of yours will associate with Portuguese because he cannot do otherwise. English or Americans would surely not condescend to associate with such a person.

Thanking you for the publication of these lines. Yours faithfully,

Carlos da Rosa.

WAR RUMORS

Editor, THE CHINA PRESS

Dear Sir: Rumors about the imminence of warfare between Kiangsu and Chekiang have become very widely spread during these days. Associations have been formed to implore the Military Governors of these two provinces to have mercy upon us. But the militarists in China today are in a state of insanity, and mercy, humanity, and such-like virtues have long departed from them. Although the Military Governors of these two provinces may be comparatively better than any other of their rank, yet we cannot expect too much sympathy for the people from them.

In a word, it is not without a sense of apprehension when we cast our sight to the future fate of Kiangsu and Chekiang. As fine speeches and long telegrams cannot turn the minds of the militarists, it is also true that they cannot save these two provinces from disaster if war actually breaks out. For self-defense and also for the future welfare of the Republic, we should and must look for some practical means to prevent the two Military Governors from taking such a disastrous step.

To speak openly, we cannot deny the fact that foreign intervention to the actual occurrence of war will be welcome to the people at large. Of course we do not like to see our sovereignty to be thus endangered; however, the intervention of the Powers is inevitable as soon as their interests in these two provinces will be shaken. Under the existing circumstances, it is certain that we will lose all that are good in those two provinces by war. Therefore to warn the militarists before hand is ten times better than to punish them afterwards.

The Diplomatic Corps in Peking have issued a warning to the Waichiaopu as the present situation in Kiangsu and Chekiang is likely to give nuisance to the public. It may serve to recover the senses of the militarists a little; but on the other hand we are all aware of the fact that the Peking Government is no more than a shadow in the mist, how can we expect it to have direct control over them?

What should be done is that the Consulary Corps in Shanghai and Nanking should go to warn the Military Governors of Kiangsu and Chekiang that foreign forces are ready to turn them out and give back the administration to the people in case of war. It must be also carefully observed that the Powers should have no other aim than to prohibit war. If they do it for the purpose of selfishness, it will render the results more disastrous than ever, and they will receive more harm than their expecting gain.

In a republic, the people are the real masters. It is a shame that we masters should implore the mercy from these slave servants. If the Powers are selfish neighbors and their help is not very reliable, what should we masters do when the servants are plotting to ruin the whole family? We should let them know clearly that the one who breaks peace will be the one who receives punishment. We will be ruined if we rise against the militarists; we will be equally ruined if war cannot be avoided. We like to be ruined manly rather than passively.

Down with the militarists! If the people can express their sentiments in this manner, the most atrocious brute in the world will be not so daring as to provoke the kindling anger of the people. Besides, there is another thing that will at least keep these two provinces in peace for the time being; that is, the armies in Kiangsu and Chekiang are so diversified in parties that either Military Governor does not have much confidence for his own victory over the other. From these things, it is evident that if we can prevent the northern soldiers from coming down, war will not happen. Strong public opinion will make the northern warlords shrink from this mad undertaking. Let us, therefore, bear in mind that the key of peace in still in the hands of the people. God will help those only who can help themselves!

In the course of twelve years of the Republic, scarcely any place in this country has not been stained with the blood of war or troubled with the horrors of banditry. Kiangsu and Chekiang, perhaps, remain to be the only two provinces in which people can find peace, safety, and prosperity. They are the most progressive in the Republic.

We must spare them from plunging into the madness of war in order that their wealth and leading position may help the future reconstruction of China. We of these two provinces solemnly declare that any one who intends to bring on a "war scare" in Kiangsu and Chekiang should be treated worse than a traitor.

Thanking you for your space,

I am, Sir,
Yours faithfully,

Soochow, Aug. 20, 1923.

League Of Nations Opium Section Criticises China

BY HSIA CHI-FENG

(A Special Report)

THE fifth session of the League Advisory Committee on the Traffic in Opium and Other Dangerous Drugs was held at the seat of the League from May 24 to June 7. Twenty-one meetings were held and four resolutions were passed by the Committee. The members present were:

M. G. Bourgois—Chairman, France.
H. E. Prince Charoon—Vice-Chairman, Siam.
Mr. Chao-Hsin Chu, China.
M. Poonsagen, Germany.
Sir Malcolm Delevingne, Great Britain.
Mr. John Campbell, India.
Dr. Senichi Uchino, Japan.
M. van Wettum, Netherlands.
H. E. M. Ferreira, Portugal.
The Hon. Stephen Porter in association with Bishop Brent, Surgeon General Blue, United States of America.
Assessors.—M. Henri Brenier, Sir John Jordan, Mrs. Hamilton Wright.

This session of the Committee was particularly important and showed the great increase in the Committee's activities. It included such important questions as the execution of Part II of the International Opium Convention of 1912 in the territories in the Far East, the general position with regard to world production of opium, the consideration of bonded warehouses in relation to the traffic in narcotics, the establishment of a uniform system of statistics covering all international movements of drugs, and the two proposals of the United States of America regarding the interpretation of the Convention and the limitation of the production and manufacture of opium and its derivatives to medical and scientific uses.

The head of the United States Delegation was Mr. Stephen G. Porter, Chairman of the Committee for Foreign Affairs in the House of Representatives. He has always been opposed to the United States joining the League of Nations, but in the work of the Opium Advisory Committee, which is an organisation of the League, he takes a great interest and he came to Geneva as the representative of his Government to co-operate with this Committee. The United States Delegation presented two proposals as follows:

1. If the purpose of the Hague Opium Convention is to be achieved according to its spirit and true intent, it must be recognised that the use of opium products for other than medicinal and scientific purposes is an abuse and not legitimate.

2. In order to prevent the abuse of those products it is necessary to exercise the control of the production of raw opium in such a manner that there will be no surplus available for non-medicinal purposes.

The Committee fully examined the proposals, which, in its opinion, had been presented at a favorable moment since the Committee's work for the last two years had prepared the way for the adoption of somewhat similar measures. A drafting committee was appointed to establish a definite text of four resolutions embodying the American proposal and those of the British representative and Sir John Jordan, and after considerable discussion, the following text was approved and unanimously adopted by the Committee:

I. That the Advisory Committee on Traffic in Opium accepts and recommends to the League of Nations the propositions of the United States' representatives as embodying the general principles by which the governments should be guided in dealing with the question of the abuse of dangerous drugs, and on which, in fact, the International Convention of 1912 is based, subject to the fact that the following reservation has been made by the representatives of the Governments of France, Great Britain, Germany, Japan, Netherlands, Portugal and Siam.

The use of prepared opium and the production, export and import of raw opium for that purpose are legitimate, so long as that use is subject to and in accordance with the provisions of Chapter II of the Convention.

II. That the Committee, appreciating the great value of the co-operation of the Government of the United States of America in the efforts which the League has for the past two years been making to deal with the question of the abuse of dangerous drugs, expresses the belief that all the Governments concerned will be desirous of co-operating with the Government in giving the fullest possible effect to the Convention.

III. That, in bringing the American proposals to the notice of the Council and the Assembly, the Committee would recall that, during the two years that have elapsed since the Convention came into operation, it has worked towards the same ends by (1) taking all possible steps to secure

League Of Nations Opium Section Criticises China

(Continued from Page 12)

the adhesion of all countries to the Convention; (2) investigating the question of the world's needs of the manufactured drugs for medical and scientific uses, with a view to the eventual limitation of the production of these drugs; (3) recommending the system of import certificates, arranging the exchange between states of information in regard to the illicit traffic in the drugs, and proposing other measures for securing international co-operation in suppressing that traffic; (4) inviting the Powers with territories in the Far East to review their requirements of opium, and submitting proposals for an investigation by the Chinese Government of the conditions in China, with a view to the more effective application of Chapter II of the Convention and the solution of the problem of the use of prepared opium in the Far East; (5) collecting and publishing information as to the measures taken to give effect to the Convention and the position generally in all countries in regard to the traffic, with a view to securing the enforcement of the Convention.

IV. That, as a means of giving effect to the principles submitted by the representatives of the United States and the policy which the League, on the recommendation of the Committee has adopted, and having regard to the information now available, the Committee recommends to the Council the advisability of inviting:

(a) The Governments of the states in which morphine, heroin, or cocaine, and their respective salts are manufactured and the Governments of the states in which raw opium or the coca leaf are produced for export for the purpose of such manufacture.

(b) the Governments having territories in which the use of prepared opium is temporarily continued under the provisions of Chapter II of the Convention and the Government of the Republic of China,

to enter into immediate negotiations (by nominating representatives to form a committee or committees or otherwise) to consider whether, with a view to giving the fullest possible effect to the Convention of 1912, agreements could not now be reached between them:

(a) as to a limitation of the amounts of morphine, heroin, or cocaine and their respective salts, to be manufactured; as to a limitation of the amounts of raw opium and the coca leaf to be imported for that purpose and for other medicinal and scientific purposes; and as to a limitation of the production of raw opium and the coca leaf for export to the amount required for such medicinal and scientific purposes. The latter limitation is not to be deemed to apply to the production and export of raw opium for the purpose of smoking in these territories where that practice is temporarily continued under the provisions of Chapter II of the Convention.

(b) As to a reduction of the amount of raw opium to be imported for the purpose of smoking in those territories where it is temporarily continued, and as to the measures which should be taken by the Government of the Republic of China to bring about a suppression of the illegal production and use of opium in China.

The situation in China makes the solution of the problem extraordinarily difficult, and China was criticised in the light of the reports of the International Anti-Opium Association to the Committee. The chief criticisms were:

(a) According to reports made traordinarily difficult, and China and by Christian missions, the cultivation of the poppy had spread through certain parts of China and particularly in those provinces which are not under the control of the Central Government at Peking.

(b) In the province of Yunnan, opium is produced everywhere, under the protection of the militarists. An indication of the importance of the production in that province is given by the fact that opium was sold at 1 dollar per oz. in February, at 50 cents in March, and at 30 cents in May 1920. The British Consul in Yunnanfu reported that opium was cultivated throughout the whole province and that a regular system of taxation is imposed by fines. Cultivation is directly encouraged by the military authorities.

According to the report of the French representative on the Committee, during 1922 several hundreds of tons of opium were sent to a certain province in Southern China through Indo-China at the official request of the Military Governor of Yunnan; the British Government had asked the French Government to inquire into it and the latter had telegraphed to the authorities in Indo-China to stop it at once. At the present time there were still 250 tons of opium waiting to be exported.

(c) The official reports of the special commissioners sent by the Chinese Government might have been made in co-operation with the Military Governors.

(d) There has recently been a rumor of an opium monopoly in China. This is absolutely contrary to the public opinion of the world.

(e) Very few of the reports of the Chinese Government on the opium production of 1922 have been sent to the League of Nations.

(f) Finally, Mr. Campbell, representative of India, stated during the meeting that it was not to be expected that the statements of the Chinese militarists should be trustworthy, just as bandits before a court of justice will never confess the crimes they have committed.

Replying to these criticisms, Mr. Chao Hsin-chu said that—

(a) There is a Chinese law prohibiting the production of opium.

(b) In certain provinces opium is produced under the control of the militarists, this is not the fault of the Central Government on account of the present difficult political situation and the Chinese Government is not to be blamed.

(c) Public opinion in China has always protested energetically against the production of opium and the smoking habit.

(d) Finally, Mr. Chu made an official statement on behalf of the Chinese Government that the rumor of an opium monopoly in China was false. His statement was as follows:

The Government of the Republic of China would never, under any circumstances, sanction the production of opium in China, and the present recrudescence of opium was due to the lack of control over certain provinces. The rumor which had been circulated regarding the establishment of an opium monopoly by the Chinese Government was absolutely untrue, and that Government would never recede from the position which it had taken up in 1917, when the final prohibition of cultivation had been carried out.

On the other hand Mr. Chu proposed to the Committee that the Government of Hongkong can punish Chinese opium smugglers very severely and even use capital punishment and that the Chinese Government will never protest against the treatment because they did not recognise these Chinese as citizens of the Republic.

This meeting of the Advisory Committee is considered by the public and everyone concerned to be very important because of the presence of the United States Delegation, which has expressed itself pleased with the work of the Committee, and it is believed they may discuss with their people and Government the work of the League of Nations as a whole. The presence of the United States Delegation attracted a large number of journalists of all nationalities. Many telegrams and articles were despatched published in different newspapers in all countries. This shows that public opinion throughout the world is more interested in the activities of the League of Nations, since the United States considers that the League is the best institution for the carrying out of the Hague Convention of 1912.

As the meetings were held in public, it is a pity to see that the people of all nations heard the criticisms sent to the Committee by the International Anti-Opium Association and other associations on the subject of the inability of China to carry out the Hague Convention and the resolutions of the League, and in particular that opium is officially produced in China under the supervision of militarists in certain provinces. As the Chinese delegate said, the best weapon against the militarists in China is public opinion, the strength of which has already been shown in the early years of the campaign. However, Mr. Jordan said that since the public opinion with regard to prohibition of the opium traffic had ceased to exist in China, and the cultivation had largely increased since that time. When China is going to suppress production of opium or is entirely dependent on the [illegible] people.

It is hoped that a nation like China, whose history of civilization is five thousand years and whose inhabitants are four hundred million in number, will be able to suppress the production of opium in her territory and that public opinion in China will support the Government in the same way to banish the common vice of human beings which for a long time has injured the welfare of these people as well as the other nations.

A Treasure-Trove of Humor From His Newly Discovered Newspaper Writings

HIS LIMIT

A FAT, bald-headed man sat on a rustic bench on a lawn in his shirt-sleeves, on a hot night in a perspiration at a late hour, in Houston. That sounds queer, but upon examination, it proves to be all right.

The man was fifty-two, impatient, hot, married, and had prickly heat. It was on one of those balmy nights last week when dogs dig holes under the fence, and girls carried their puff boxes to the ice-cream saloons with them.

The man leaned over and fanned himself and allowed the perspiration to run off the end of his nose in a puddle at his feet.

Occasionally he would say things in a low tone of voice without separating his teeth.

Ten feet away was a fence, and the other side of the fence was another lawn, and voices.

The fat man listened.

One voice suggested tooth-pick shoes, a curled moustache, and a silk shirt. The other was redolent of white duck, open-work stockings and a trusting heart. The white duck voice said, "hug me, Wootsy, as tight as um wuvs

The fat man, aged fifty-two, with prickly heat, tore open his collar, fanned himself furiously and muttered something to the starry night.

Then the tooth-pick shoes voice was heard to exclaim:

"What's the matter wiv my lil' pet? What ums crying for?"

"That ain cry," said the white duck voice, "that's perspiration."

The fat man uttered a howl of despair, sprung to his feet, and made a bee line for the refrigerator.

And high in the heavens the goddess of night paused a moment and scratched her back against the rays of the evening star.

NO TIME TO LOSE

A young Houston mother rushed into the house the other day in the utmost excitement calling out to her mother to put an iron to the fire as quick as possible.

"What is the matter?" asked the old lady.

"A dog has just bitten Tommy, and I am afraid it was mad. Oh, hurry up, mother; be as quick as you can."

"Are you going to try to cauterise the wound?"

"No—I've got to iron that blue skirt before I can wear it to go after the doctor. Do be in a hurry."

What do you know about the MILK you drink?

That is a most important question—but one not easily answered. Most people try to judge milk by the cream line on the bottle or by taste. But the whole story of milk is not revealed by those two tests.

Spell it backwards

CASTORIA

for Infants and Children.

The Effects of Opiates

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, craving for alcohol or narcotics in later life. Nervous disorders such as intractable nervous dyspepsia and lack of staying power are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them without narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of *Chas. H. Fletcher* guarantees genuine Castoria

Physicians Recommend Castoria.

"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better."
JOHN J. LEFFA, M. D., Cleveland, Ohio.

"I have prescribed your Castoria in cases and have always found it an efficient and speedy remedy."
A. F. PEELER M. D., St. Louis, Mo.

"For several years I recommended your 'Castoria' and shall always continue to do so, as it has invariably produced beneficial results."
EDWIN F. PARDEE, M. D., New York City.

"I have used your Castoria in my household with good results, and have advised several patients to use it for its mild, harmless effect and freedom from harm."
EDWARD PARRISH, M. D., Brooklyn.

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies."
VICTOR H. COFFMAN, M. D., Omaha, Neb.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a safe and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments."
J. A. PARKER, M. D., Kansas City.

Sir John Jordan Blames Bad Times For China's Chaos

(Reuter's Service)

London, Aug. 18.—Bad as the present position in China undoubtedly is, says Sir John Jordan in the Times, it is no worse than it has been more than once in the past.

He considers that the causes of the present disorganisation and the collapse of all authority are largely economic. Sir John reviews the events of the past thirty years, showing how the former system of apportionment of revenue between Peking and the provinces has been displaced to the latter's considerable disadvantage, until now they have ceased to send revenue to Peking and have declared a system of fiscal autonomy, which has reduced Peking to a shadow.

He examines and cites arguments against the different suggestions for remedying the existing situation, but is inclined to favor the proposal that the conference on the Customs surtax should be enlarged and should study fiscal relations between Peking and the provinces. The Conference should be held at Shanghai and should be widely representative.

Sir John Jordan declares that the tuchuns are not all bad, and mentions the good qualities displayed by Generals Yen Hsi-han and Lu Yung-hsiang, and even Marshal Chang Tso-lin. In conclusion he states that without Chinese co-operation no effective or permanent remedy can be found for Chinese ills.

Start the day right by taking a cup of OVOMALTINE, the world's leading tonic food. Take it in addition to or as a substitute for tea, coffee or milk with your breakfast.

OVOMALTINE

Osaka To Improve City For Prince Regent's Wedding

Osaka will spend approximately Y. 1,000,000 in commemoration of the wedding of the Prince Regent and Princess Nagako Kuni according to tentative plans made public by the Osaka City Office. In accordance with the desire of the Imperial Household Department that gifts intended for the Imperial couple should be neither bulky nor expensive, most of the money to be appropriated by Osaka will be spent for improvement of the city.

Only about Y. 10,000 will be spent by Osaka for the purchase of Imperial wedding gifts. A pair of silver statues will be sent to the Prince Regent and a lacquer box to Princess Nagako. The rest of the money will be spent largely for civic improvement in the city permanently to commemorate the occasion. It is reported that a portion of the money will be spent on road improvement, and one or two beautifully laid out squares such as are seen in large foreign cities will probably be built.

Where Big Industrial And Railroad Heads Hail From

BY B. C. FORRES

This article shows where the heads of forty of America's leading industrial and twenty of our leading railroad companies hail from. The record does not bear out the popular assumption that giants from the West become the directing heads of a majority of our largest enterprises.

True, the Middle West is very strongly represented, but, even so, no Middle Western state is so well represented as New York or Pennsylvania in the industrial table. Ohio leads Illinois and Michigan and Wisconsin.

The State which has produced the largest number of important railroad heads is Pennsylvania, with Ohio, Indiana, Illinois and New York tied for second place.

* * *

The States which have supplied industrial leaders rank as follows:

New York	5	N. Hampshire	1
Ohio	4	Missouri	1
Michigan	3	Vermont	1
Illinois	3	California	1
Pennsylvania	3	N. Carolina	1
Mass	3	Maine	1
Wisconsin	2	Delaware	1
Connecticut	2	Alabama	1
New Jersey	2	Scotland	1
Canada	2	England	1
Louisiana	2		

The following table, giving a list of forty of our leading industrial enterprises, tells the birthplace of the head of each:

HEAD	COMPANY	WHERE BORN
J. Ogden Armour	Armour & Co.	Milwaukee, Wis.
Earl D. Babst	Am. Sugar Refin	Crestline, Ohio
A. C. Bedford	Stand. Oil, N. J.	Brooklyn, N. J.

Pennsylvania has produced three railway heads; Ohio, Indiana, Illinois and New York two each; and California, Wisconsin, Vermont, Louisiana, New Hampshire and Texas one each, and Ireland one.

The railroad table is as follows:

HEAD	COMPANY	WHERE BORN
W. W. Atterbury	Penn. R. R.	New Albany, Ind.
B. F. Bush	Miss Pacific	Wellsboro, Pa.
H. E. Byram	Chi. Mil. & St. Paul	Galesburg, Ill.

New York City would appear to be a bad place to be born in. Nor would the prospects of the native Chicagoan seem to be particularly bright; it should be remembered, however, that the Chicago of the period when our present-day business giants were being born was not the metropolitan city Chicago is today. The likelihood is that if some writer should compile tables similar to these thirty years from now, both New York and Chicago would make a distinctly better showing.

* * *

The small-town lad, the statistics reveal, suffers no disadvantage as compared with the city boy, to say the least. May this be because in our teeming cities parents have less time—or less disposition—to watch over and train their offspring in the paths that lead to achievement?

* * *

In any case, the foregoing record is interesting, is it not?

Canton Notes

Canton, Aug. 14.—The cruiser Wing Fung has returned to Canton from Amoy where she rendered no little service in the recent fight against the northern squadron sent by Wu Pei-fu to attack that Fukien port. With the co-operation of the forts, the Wing Fung succeeded in defending the port and sank two smaller boats of the enemy squadron. Now that peace is restored in Amoy, the commander of the cruiser took her back to Canton and arrived in port yesterday noon.

Immediately upon her arrival, the officers of the cruiser called on Dr. Sun Yat-sen at General Headquarters and submitted their report of the recent fight.

The Wing Fung was one of the four cruisers that remained loyal to Dr. Sun in last year's coup d'etat instigated by Chan Kwing-ming. This cruiser was Dr. Sun's place of refuge for nearly two months when he was driven from Canton by Chan Kwing-ming's troops.

According to a wireless message from the Shiukwan Station some of Sham Hung-ying's defeated troops which attempted to capture Namyung have been completely routed by the Constitutionalist Force and again driven across the Kwangtung-Kwangsi border back to Kiahsi.

A party of seven foreigners, including two ladies, left for Waichow Monday morning by special train of the Canton-Kowloon Railway to see the fighting in the Eastern front. The General Headquarters has instructed the military commanders at the front to give sufficient protection to these foreigners.

On the 12th inst., the passenger and goods train service of the Canton-Kowloon Railway remained suspended, all the cars being used in the transportation of troops to the East River districts.

Dr. Sun Yat-sen, in a mandate, formally accepts the resignation of General Ngai Hong-ping, Commander-in-Chief of the Constitutionalist forces on the West River and appoints him as Director of the Hainam Development Enterprise.

It is stated that General Ngai will lead his forces, the Third Division, to Hainam and organise there two labor battalions for the industrial development of the island.

The passenger and goods train service of the Canton-Hankow Railway was again suspended on the 11th inst. Owing to the re-appearance of the Kwangsi and Northern troops at Namyang and Chiuling, the Canton authorities have commandeered all the cars of the railway for the transportation of troops and war supplies.

Owing to the recent incessant heavy downpour of rain, the West River has again risen in flood after having subsided a little.

French Wireless—News And Views

(French Wireless through Reuter)

Paris, Aug. 18.—M. de Lasteyrie, the Minister of Finance, interviewed on the situation of the French exchange, declared that the fall in the franc was in no way due to economic causes. For the past year there had been a real improvement in the general situation. The revenue from taxation for the first (six) months of the year showed an increase of 1,331,000,000 francs and the railway revenue for the same period an increase of 180,000,000 francs.

Savings bank receipts exceeded 265,000,000 francs. Imports increased in a similar manner. The balance of the Banque de France, which is considered abroad as the thermometer of the French financial situation, is fully encouraging.

The total of State loans which totalled Frs. 25,825,000,000 in 1920, fell to Frs. 25,200,000,000 in 1921, to 23,300,000 in 1922, and to 23,700,000 in 1923.

These figures show the general activity of the country and the favourable results obtained in the last few months. The depreciation of the franc is due almost exclusively to speculative influences. There are in France very considerable foreign balances which are essentially mobile under external influences. They change with the greatest facility and can bring about momentous coups on the exchange. There are also reported lately important sales of francs on foreign account and even overselling.
